# SO WHAT MAKES YOUR COMMITTEE GREAT?

## SO WHAT MAKES YOUR COMMITTEE GREAT?

There are small number of delegates. This leads delegates to have interactions on a more personal level to make more friendships.

CRISIS

In Crisis Committee delegates can control every aspect of government and even assassinate leaders. For example, in this SAIMUN Brazil's president was assassinated. Moreover, delegates can set up spy networks where you can intercept other people's notes, which makes this committee more engaging than any other committees.

-Bennett Jones-

General Assembly one provides serious topics like terrorism and transparency, whilst allow all nations to participate without being denied by veto power. This lead our committee to be great with extremely nice delegates, which helps me not afraid to socialise.

-Nicholas Chin-

## GENERAL ASSEMBLY I

## GENERAL ASSEMBLY II

General Assembly Two is great due to my existence.

-Mu Jun KIM-

With beautiful, fabulous and kind chairs, General Assembly Two is the best committee.

## SO WHAT MAKES YOUR COMMITTEE GREAT?

Personally, I believe proper education is key to solve global issues and also what I am planning to work on the future. The topics in GA3 are also very interesting this year.

## GENERAL ASSEMBLY III

## GENERAL ASSEMBLY IV

In General Assembly Four there are wide diversity of people, who are not only passionate but also have a great sense of humor. We believe our committee is great with beautiful chairs, attractive delegates and exceptionally friendly admins.

-Sang Beom LEE, Sam KIM-

Human rights council is full of great people, which makes the committees great. Moreover, my committee delegates are very vibrant, they make not only the committee better, but also enrich my life as a whole.

## SO WHAT MAKES YOUR COMMITTEE GREAT?

The chairs are really good, and the fact that there are many new people in our committee make it interesting. EC is different from the rest of the councils that talk about problems related to people and governments because we talk about the world itself.
